**Description/Special Properties**

The LS-6011 is a solvent based dye based ink that has good restart for a solvent-based ink, and prints well on aqueous coated stocks. Drying may be needed on certain stocks.

Use a lint free cloth to clean the print head. Wipe slowly and lightly across the tip of the long edge with the print head facing down. Forcing the wipe (too much pressure) may scratch the print head. Use of a cloth with lint may clog the nozzles.
